ABOUT US

KABTEL dooel - Skopje started its commercial operations in September 2001. For over 20+ years the company has been doing business and successfully accomplishing even the most specific requests and requirements from its customers.

With its high quality product and service portfolio as well as the direct communication with its clients and partners, in an incredibly short period, KABTEL has emerged as the leader of the new wave of ICT services and expertise setting out new higher standards. KABTEL's trademarks are enrichment of the final product, uncompromised security and quality, reliability, modularity and scalability of the solutions deployed with effective training and after-sales support delivered to the client.

KABTEL together with its reputable partners such as Nexans, Kaspersky, Alcatel - Lucent, Dura - Line, Sophos, EnGenius, Sauter, Robotina, Nokia Networks, ESSER by Honeywell, TREND by Honeywell, ABB, Lande, McAfee, Olympia Electronic, etc ... guarantees the highest quality of integrated information & communication systems enabling the transfer of knowledge, experience and technology, all for the benefit and ultimate satisfaction of our customers.

In 2013 KABTEL was awarded the status of "Key Partner" to Thales, a multinational company that designs and builds systems and provides services for several markets - aerospace, defense, transportation, and security. In 2021, Kabtel completed the certifications and became "Thales Key Industry Partner".

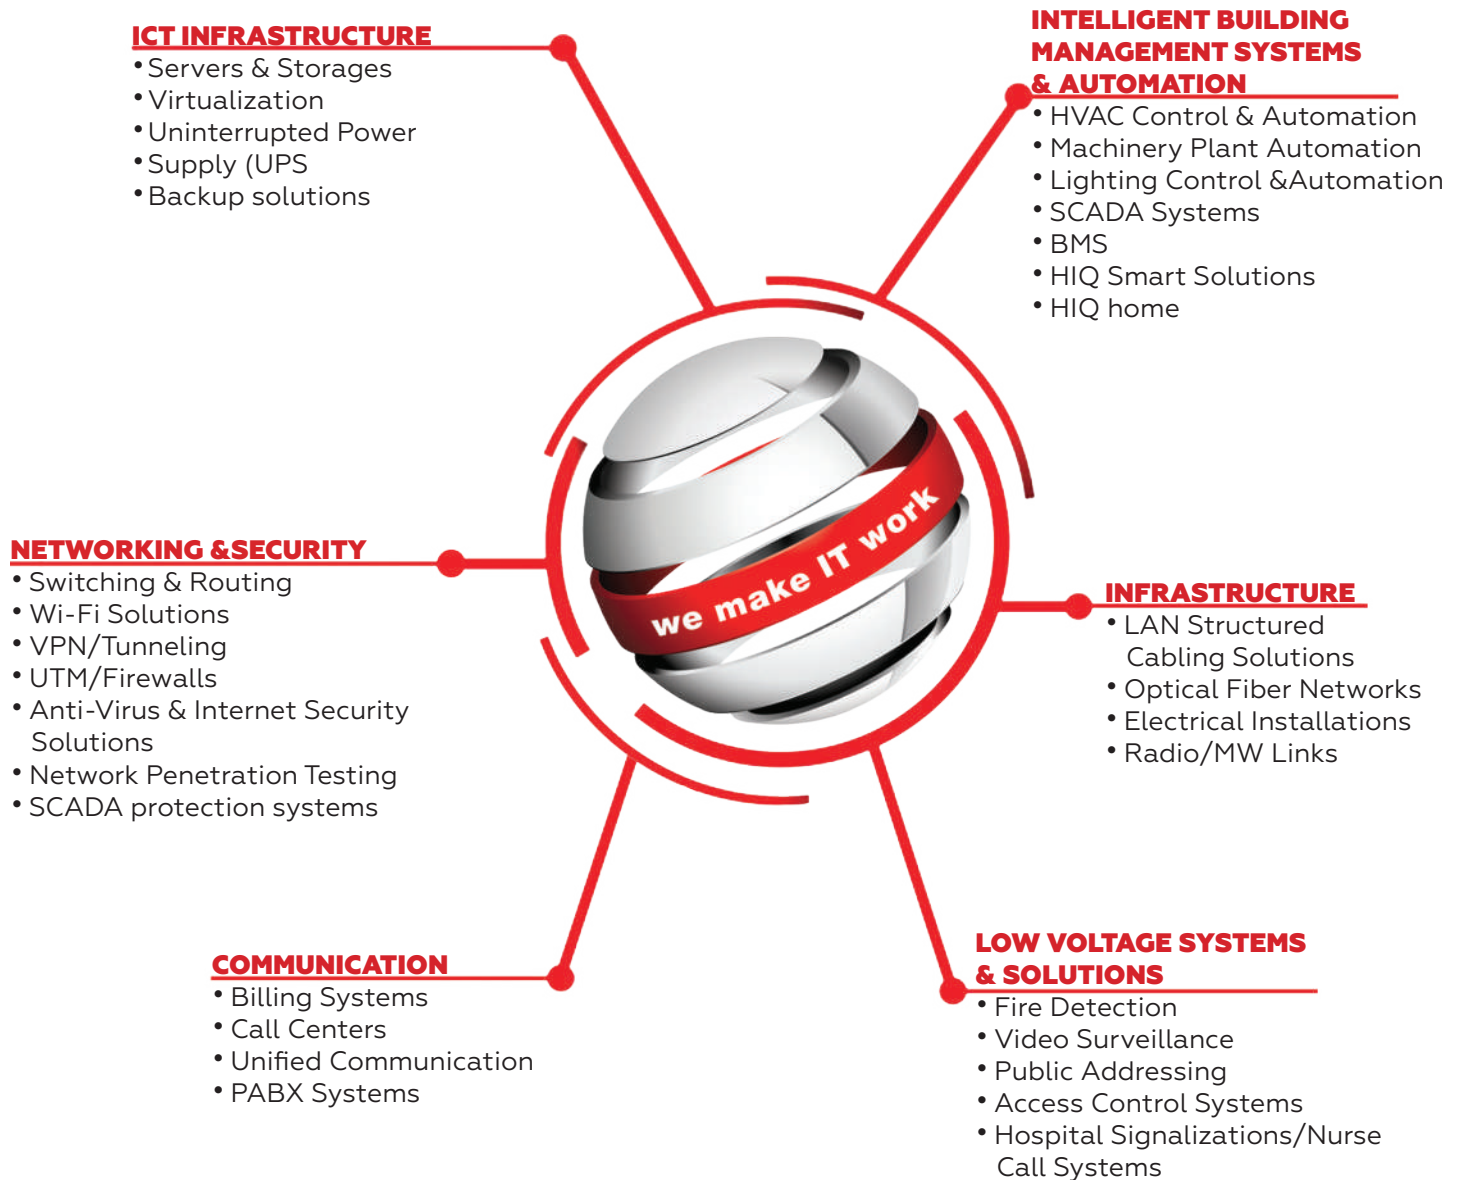

MISSION

Design, implementation and maintenance of comprehensive information and communications systems based on the latest ICT technologies to support the growth and success of our customers and partners from all sectors and industries.

FOCUS

Our focus is to change the way you think about the new wave of ICT services and expertise. Following the needs of our customers, we will create fully integrated information and communication solutions. In the future, the uncompromised safety, reliability, modularity and scalability of our solutions will be our goal.

NEXANS REGIONAL TRAINING CENTER **NEXANS CABLING SOLUTIONS EXPERT LEVEL CERTIFICATION**

Kabtel is a Certified Nexans Regional Training Center in Macedonia for providing specialist training to designers and installers of computer, telephony and fiber-optic networks.

This specialist training includes detailed theoretical and practical lectures and exercises in order for the participants to be fully acquainted with all the important segments of today's local networks created over copper and fiber cables, as well as designing cabling systems (structured cabling) according to the ISO/IEC 11801 standard.

The training will cover the components of Nexans designed for creating copper and fiber networks.

Any interested persons may participate in the specialist training regardless of their qualifications (university degree, high school degree, skilled trades). Each participant, after successfully passing the final test, will receive an international certificate issued by NEXANS.

Trainings are held at the premises of KABTEL. The training itself is in Macedonian, conducted by an international trainer in accordance with ISO/IEC 11801 standards for structured cabling.

OUR TEAM

Our team is our most valuable resource and the main reason for our success.

People make the difference!

The success of our company relies not only on our technologies, methodologies and infrastructure, but also on the commitment and passion of our employees. **People make the difference!** Our team is a very unique mix of business leaders, strategists, engineers, ITC experts, sales specialists and support staff.
